Activity 1

1. Revisit threats and issues from this morning. Do any more need to be added?
2. Now working as a group - start to group the threats & issues into the **three EAFM components:**

Ecological
well-being

Human
well-being

Good
governance

Activity 2

1. Analyze your current fisheries management approaches and practices
2. Identify which EAFM elements you are already doing
3. Identify the gaps in your EAFM practices and suggest ways to address these
4. Share these in your groups. Keep notes (you will need these for rest of course)

Homework

1. Refer to your Workbook.
This shows a continuum with 0 = none through to 5 = excellent
2. Think about **your fishery**.
For each of the 7 EAFM principles listed, plot the extent to which each principle is being applied in your fishery
3. We will build on this work tomorrow
